Instructor's Guide Quick Start

The BookShark™ Instructor's Guide (IG) is designed to make your educational experience as easy as possible. We have carefully organized the materials to help you and your children get the most out of the subjects covered. If you need help reading your schedule, see "How to Use the Schedule" in **Section Four**.

This IG includes a 36-week schedule, notes, assignments, readings, and other educational activities. See **Section Three** for specific organizational tips, topics and skills addressed, the timeline figure schedule, and other suggestions for the parent/teacher. Here are some helpful features that you can expect from your IG.

Easy to use

Everything you need is located right after the schedule each week. If a note appears about a concept in a book, it's easy to find it right after the schedule based on the day the relevant reading is scheduled.

Maps

Colorful map answer keys, which double as bookmarks, will help you easily find relevant map locations. You will find the coordinates and the location name in your notes.

4-Day Schedule

Designed to save one day a week for music lessons, sports, field trips, co-ops or other extra-curricular activities.

To Discuss After You Read

These sections help you hone in on the basics of a book so you can easily know if your children comprehend the material.

To Discuss After You Read

- Q When Henry brings food home for his siblings, the author describes the food by its color—i.e., brown bread and yellow cheese; can you think of four foods that are made more specific by describing their color?
- A suggestions: white and dark meat (chicken); green beans/ yellow beans; yellow tomatoes; yellow squash; dark

Vocabulary

orphan: a child whose parents are dead.
children's home: an orphanage.

Vocabulary

This section includes terms related to cultural literacy and general vocabulary words in one easy-to-find place.

Notes

When relevant, you'll find notes about specific books to help you know why we've selected a particular resource and what we hope your children will learn from reading it. Keep an eye on these notes to also provide you with insights on more difficult concepts or content (look for "Note to Mom or Dad").

Note: The Yangtze River is the third longest river in the world. The author talks about "the yellow waters of the Yangtze river." The river carries an enormous amount of silt from higher elevation in Western China. It drops the silt on the central plains which creates good soil for rice planting. In 2016, the Chinese government completed the Three Gorges Dam across the Yangtze, the world's largest dam. It generates electricity and will hopefully cut down on flooding. To build it, the government moved 1.2 million people.

Week 1

Day 1

History/Geography

Reading the History Books Aloud

We encourage you to use the narration method to help your children focus and retain the History material. Narration differs from the classroom method of testing random ideas and may seem strange at first, but we have no doubt you'll come to appreciate it.

In the narration method you'll read the History books together, and then have your children tell you what they remember from the reading. Enjoy hearing all your children have grasped!

The Usborne Book of World History | Review pp. 6–27

Note to Mom or Dad: Some pages of this book contain nudity and battle illustrations. If your children are sensitive to this, we recommend you look through the book before you read it with your child.

Because it's likely been a while since your children have thought about ancient history, we start the year with some review. You'll cover centuries of time in just a few days so just look at the pictures and read the following notes. Don't reread the text—use this to remember where you've been in history.

The earliest civilizations developed on river-banks, for farming was easier there, a steady supply of fish were available, and transportation was easy. Archeologists have discovered the following early civilizations:

The Sumerians | pp. 8–13

The Sumerians settled in the Tigris/Euphrates River area. This area is called Mesopotamia, or between the rivers. Sumerians produced one of the earliest writing forms: cuneiform.

They had many small city-states, each with their own rulers and laws.

They built with clay bricks.

They were the first to use the wheel.

They grew crops, rather than hunting and gathering their food.

Sumerians created ziggurats.

Ancient Egypt | pp. 14–23

The Nile inundation produces fertile land.

Canals stored water and enabled the Egyptians to grow crops easily.

The first king who ruled a kingdom: Menes ruled Egypt in 3400 BC.

The Egyptians used hieroglyphics to write.

The Egyptians had a strong sense of the afterlife and built elaborate tombs. The pyramids were tombs built for the pharaohs. The pyramids are one of the wonders of the world.

Crete | pp. 24–27

The Minoans built a beautiful palace with beautiful frescoes at Knossos.

No one has translated Minoan script.

Cretans enjoyed bull-leaping probably as part of their worship.

Geography Songs | "Continents and Oceans" Track 32

We deliberately schedule *Geography Songs* out of order. We begin with the continents, move to the Middle East (where civilization began), and then move to Europe, Russia, Asia, etc. We hope this resource helps you and your children learn more about this wonderful world!

Read-Alouds

Read-Alouds are quality literary works you read to your children. Among all their many qualities, Read-Alouds:

- introduce your children to great literature beyond their personal reading capacity. We have classified most of our Read-Alouds as such (rather than as Readers) because they require greater reading skill than most students at the specific level have normally acquired.
- develop a life-long love of reading. When you read great literature to your children, it creates a thirst to read. They'll begin to think, "I love books! One day I'm going to read books like this!"
- expand your children's vocabulary.
- build important listening skills—including the ability to visualize the meaning of spoken words.
- develop an "ear" for good oral reading.
- develop oral reading skills. Having heard quality oral reading done by you, your children will imitate you.

- give you and your children a context for sharing mutually significant times together.

Read-Alouds differ from Readers in that they require deeper understanding of “the way things are”—in life in general or in a specific area. Others are emotionally charged enough that we figure you ought to be “right there” to help debrief your children.

And then there are those books we’ve classified as Read-Alouds simply because they’re too good to let your children enjoy by themselves. We know you’d feel cheated if you weren’t in on the adventure.

Vocabulary Development

We incorporate vocabulary development within the Read-Aloud notes. We pull these vocabulary words from the books you read together.

How to Teach Vocabulary: Find the vocabulary words in **bold** type in a sentence. Read the sentence to your children and see if they can define the word. If they don’t know, just explain what the word means to your children. For words that are in **bold** type followed by a colon, define the word for your children as you read the book aloud.

Example:

Vocabulary

... Night came down quickly over the **equatorial** forest ... (*a rainforest near the equator*)

Hibernation: when animals spend the winter sleeping.

Red Sails to Capri | Chapter 1

Overview

The German writer August Kopisch first revealed the existence of the Blue Grotto (Grotta Azzurra) when he described its extraordinary beauty in August, 1826. Since then the Blue Grotto has become the emblem of the island of Capri; but its history goes back much further. It was well known to the Romans, as proved by antique statues that were found submerged in it back in 1964. This discovery, plus the discovery of remains from an ancient landing place and work on an underground tunnel suggest that the cavern was once visited frequently.

The Capri locals knew about the grotto before Kopisch described it, but they avoided it because they thought witches and monsters inhabited it.

Vocabulary

“The good saints keep us”: a phrase used by Catholics who believe Saints in heaven watch over people on earth and advocate on people’s behalf.

tam: a hat with a tight head band and a wide flat circular crown.

landlubber: a person who lives and works on land, an inexperienced sailor.

wry: twisted to express emotion.

“5 lire times forever”: if the guests continue to pay 5 lire per day to stay at the inn, the Paganos will be rich. In other words, the guests bring good fortune.

To Discuss After You Read

- Q: What countries do the three strangers come from and what do they seek?
 A: *England—to paint beauty; Denmark—to study; France—a writer, in search of adventure*
- Q: Why are guests in the off-season so welcome?
 A: *they bring in money and give workers something to do*

Timeline and Map Activities

Note: Find the laminated maps at the beginning of this guide. We print them back to back.

📍 Capri (E5); Naples (E5); Venice (D4); Rome (E4) (map 3)

The Aesop for Children | “The Wolf and the Kid” p. 7

Rationale: We include this book to make children aware of their cultural heritage—of famous stories. We also want them to be aware of stories told to teach a lesson; a moral tale. Please note that we do not schedule every story. Feel free to read the extra stories at your convenience, as bed-time stories or during vacation.

Vocabulary

kid: a young goat.

To Discuss After You Read

- Q: How did the Kid avoid being eaten by the Wolf?
 A: *he asked the Wolf to pipe him a tune; the shepherd dogs heard it and came back to rescue the Kid*

The warrior kings conquered the Hyksos. Egypt controlled the largest empire of the time. Many nations paid tribute to Egypt. The easiest travel was on the Nile. Temples and tombs were made of stone. Cornstalks: A Bushel of Poems | pp. 6–7

Rationale: Author and illustrator James Stevenson, while never a Caldecott or Newbery Medal winner, has won many significant though lesser awards over the years, such as the *New York Times* “Outstanding Children’s Book of the Year” and the “Children’s Choice Award.”

While we find this title delightful, it is quite different than what you might expect a “poetry” book to be.

For one thing, if you think of poetry as rhymes, with stanzas, this book really doesn’t fit. It has few rhymes. It has few words. There is no rollicking Dr. Seuss meter, no Shakespearean order and rhyme. (And there’s no literary nonsense poems like those of famous poet Edward Lear, which we appreciate!)

For another thing, it doesn’t deal much with a child’s experience; it doesn’t deal much with the weather, or pets, or parents, as sweet children’s poetry does. It doesn’t deal with horrible cafeteria food, the trauma of the first day of school, the joys of sleeping in on Saturday, or sibling spats, as most modern children’s poetry does.

Instead, Stevenson’s poems deal with subjects like a used car lot buried under snow, or strange pieces of equipment, or people walking on a city street. These aren’t unknown to children—most children have probably observed a used car lot as they drive around town, and most have walked down a city sidewalk—but they aren’t as expected as bedtime or Autumn. They are unusual for a children’s book.

So without standard appearance, standard rhyme, or standard subjects, this book may be a bit difficult to feel enthusiastic about, at least at first.

It’s a bit difficult to defend this book as poetry, if only because poetry is difficult to define. (As one college professor admits, “There’s really nothing to define poetry other than that the lines don’t extend across the page.”)

We feel that poetry makes us look at the world a different way. It invites us, the reader, to see the world through the poet’s eyes.

We love these poems because we are constantly surprised by them. Stevenson doesn’t look at the world the way we do, and he conveys his experiences with such brevity, and such understated watercolors, that this book delights all readers. We find these poems funny, quirky—a beautiful blend of words and art.

For example, “Surprises.”

I’ve been attacked by a rooster,
Kicked by a horse, chased by hornets,
And bitten by a seal.
Each time
I was surprised.”

If we could finish this, maybe the ending would be: “Animal-inflicted pain really comes unexpectedly.” Or, “Thankfully, I’ve had better surprises, too.”

But Stevenson ends with:

“You never know
What’s on somebody else’s mind.”

That’s a profound statement. Until the other character acts, there may be no warning of vendetta. (From life: “Until the wife lashes in anger, there was no hint of unhappiness.”) And so interesting to have the title be “Surprises,” something usually associated with happy things, like birthdays and Christmas.

Is this too mature for young children? It may be. But we suspect most children have an inkling at least of hiding an emotion; of thinking a mean thought. So talk about it. Aren’t we thankful we don’t usually know everyone else’s mean thoughts?

Or take this one:

Why am I happy
that I was born?
Just one reason
(in season):
SWEET CORN!

This one, obviously, rhymes. And, in truth, Stevenson is probably exaggerating. (Or he has a fairly depressing life!) But have you ever had a really sweet bite of corn on the cob, at just the right time of year? It’s amazing! Such a treat.

But note how Stevenson conveys the happiness of that bite, the enthusiasm, the transitory pleasure (you can’t usually even get sweet corn out of season; it’s frozen kernels). In season: enjoy it while you can.

Sure, the same sentiment could be expressed with just, “Sweet corn tastes good!” But the enthusiasm, the catchy rhyme, the glee, would all be lost.

Part of our hope at BookShark™, as you work through the material, is to introduce you to a wide variety of literature. So in our curriculum we have high brow poetry, like Shakespeare, and structured poetry, like Chaucer. We have children’s poetry, like Mother Goose, and classic poetry, like most of the books in the mid-level studies (Frost, Keats, Blake, Wordsworth, and so on).

Cornstalks: A Bushel of Poems shows that poetry isn’t all like that of Shakespeare’s day, or even of the Victorians. Our culture today, and the culture of our children, is different. We express ourselves differently.

Notes

Week 1

Our hope is that a BookShark™ student finds pleasure in these simple, funny, rich poems, and will go on to create—to communicate!—something of beauty.

And we hope that this book of poetry encourages them, a bit, towards that end.

Week 2

Day 1

History/Geography

The Usborne Book of World History | p. 97

When reading this book have your children sit around you to look at the pictures.

To Discuss After You Read

- Q: How did Christianity survive the barbarian invasion?
 A: *through traveling monks that sought to convert others and by people who demonstrated their faith*

Geography Songs | “Middle East” Track 7

We start with the Middle East since civilization began here.

The song “Middle East” (pages 15 and 16, track number 7) in *Geography Songs* includes Cyprus and North Yemen as part of the Middle East. This is not correct. Cyprus entered the European Union in May of 2004 (although this does not include the Turkish-held area of “Turkish Republic of Northern Cyprus”) So it is important to note that while your book lists Cyprus in the Middle East, the Republic should more properly be considered European. North Yemen should also be omitted from the song because North and South Yemen merged to become Yemen in 1990, the year that the song book was written.
