ALSO INCLUDES

ONLINE GUIDE ACCESS*

FREE Shipping Over \$300
Lower 48 states

All BookShark Packages are fully planned for 36 Weeks—a full school year.

*For BookShark's History, Language Arts and Science Instructor's Guides.

2. Choose a Level for Reading with History and/or Science

Individual Student

Use the chart below to see which levels may be appropriate for your child's age. Then choose a level based on the topics you want to study. If you aren't sure which topic to go with we recommend going with the middle level for your child's age. For example, if your student is 7 years old you can choose between Level K, Level 1 or Level 2. If you need additional help choosing a level, please call or email us.

Multiple Students

Combine students within a 3-year age range into one level. When choosing a single program for two or more children, we recommend choosing the lowest Level suitable for your oldest child. For example, if you have a 6 and an 8 year old, you would choose the lowest level suggested for an 8-year-old—Level 1. If you have an 8 and a 10-year-old, you would choose the lowest level suggested for a 10-year-old—Level 3. You do not need to worry about your older student being challenged enough. They will experience impactful and lasting connections between the people, places and events they learn about through vivid stories and engaging discussion.

Reading with History & Science Topics													
Age	4	5	6	7	8	9	10	11	12	13	14	15	16
Pre-K	Exploring the World												
Level K		Intro to the World: Cultures Biology, Botany, & Physics											
Level 1			Intro to World History 1 Animals, Astronomy, & Physics										
Level 2				Intro to World History 2 Life Science, Meteorology, & Mechanical Technology									
Level 3					Intro to American History 1 Biology, Taxonomy, & Human Anatomy								
Level 4						Intro to American History 2 Electricity, Magnetism, & Astronomy							
Level 5							Eastern Hemisphere Health & Human Anatomy						
Level 6								World History 1 Chemistry, Physics, & Biology					
Level 7									World History 2 Conservation, Robotics, & Technology				
Level 8										History of Science Physics, Electromagnetism, & Waves			
Level 100												American History*	

* Level 100 does not have a Science option.

3. Choose a Level for Remaining Subjects

READERS & LANGUAGE ARTS (LA)

Levels K-2: Readers are included in our Reading with History program. There are five Reader Levels available for K-2 and you can pick any of the five reading levels to go with any of the three Reading with History packages. We offer a [Quick Reading Assessment](#) on our Resources page at bookshark.com/about/resources to help you select a Reader level. If you are also using our LA program we recommend choosing the Level that matches your students ability first, then matching the Reader level, regardless of reading ability. For questions or concerns, please don't hesitate to call or email us. We are here to help!

Levels 3-7: Starting in Level 3, students transition from "learning to read" to "reading to learn." The Readers and Language Arts tie directly to the History content (LA is not a stand-alone product at these levels). To take advantage of this integrated approach, we recommend choosing the Language Arts Level that coordinates with the Reading with History Level. The All-Subject Package automatically coordinates this and is included in the package.

MATH

Choose from our large selection of [math programs](#) including *Math-U-See*, *Singapore*, *Saxon* and *RightStart Math*. If you need help selecting a math program we suggest reviewing the Strengths and Weaknesses comparison on our Resources page. Our [Resources](#) page also includes placement tests for all four math programs.

HANDWRITING

Handwriting Without Tears (HWT) is included in our All-Subject Packages for Levels K-3. You can customize your HWT Level or opt out of Handwriting. Higher levels are available for purchase as Individual items if you want your child to continue the practice.

SPELLING

Levels K-2: Spelling words are included in the Language Arts guide and are based on the accompanying Readers.

Levels 3-7: *Spelling You See* is included in our All-Subject Packages for Levels 3-7. You can customize which level your student needs or opt out if you plan to use another program. If you need help selecting the correct level, see the General Spelling Readiness Guidelines on our Resources page.

We also offer *All About Spelling*, which can be purchased as an Individual Subject.

Multiple Students

If you are teaching multiple students and purchasing an All-Subject Package, we recommend customizing the package to meet one student's needs and adding additional skill-based subjects for your other student. If your students are using the same math level, you only need to buy additional consumables rather than a whole math package. All packages on our website include a **Consumables** tab so you can see which items you may need to purchase for additional children. All packages include one set of consumables.

IMPORTANT WEBSITE FACTS

- Resources** - Resources such as placement tests, Instructor's Guide samples and more can be found in the Resource section from the **About** drop-down menu.
- Levels** - Each level has a drop-down menu that allows you to order an all-in-one package or by individual subjects.
- Consumables** Tab - Lists consumables you may want to purchase for additional children.
- Customize** Tab - Allows you to customize a package based on your student's unique needs. The package price will update as you select customized options.
- Information** Icon - Provides you with additional information to help you select your options.
