

## 2 Addition Without Renaming

There are 236 boys and 362 girls.  
How many children are there?

$$236 + 362 = \blacksquare$$

There are  $\blacksquare$  children.

We can add like this:

	H	T	O
	2	3	6
+	3	6	2
	5	9	8

Hundreds	Tens	Ones
<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> </div> <div style="text-align: center;"> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> </div> <div style="text-align: center;"> </div> </div>	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> </div> <div style="text-align: center;"> </div> </div>
<div style="border: 1px solid black; border-radius: 10px; padding: 5px; display: inline-block;"> <p>Add the ones. 6 ones + 2 ones = 8 ones</p> </div>		
<div style="border: 1px solid black; border-radius: 10px; padding: 5px; display: inline-block;"> <p>Add the tens. 3 tens + 6 tens = 9 tens</p> </div>		
<div style="border: 1px solid black; border-radius: 10px; padding: 5px; display: inline-block;"> <p>Add the hundreds. 2 hundreds + 3 hundreds = 5 hundreds</p> </div>		

$$\begin{array}{r} 236 \\ + 362 \\ \hline 8 \end{array}$$

$$\begin{array}{r} 236 \\ + 362 \\ \hline 98 \end{array}$$

$$\begin{array}{r} 236 \\ + 362 \\ \hline 598 \end{array}$$

## 2 Measuring Length in Centimeters

The **centimeter** is another unit of length.

We write **cm** for centimeters.

The grasshopper is 4 cm long.

The fish is 6 cm long.

The grasshopper is  cm shorter than the fish.

The fish is  cm longer than the grasshopper.

## 4 Measuring Length in Inches

We also measure length in inches.

The **inch** is another unit of length.  
We write **in.** for inch.

The paper clip is 1 in. long.

The pen is 5 in. long.

The paper clip is  in. shorter than the pen.

The pen is  in. longer than the paper clip.

Take a look at your ruler. How many inches are there in 1 foot?

1 foot =  inches

1. Use your ruler to measure the length and width of your textbook.

The length is about  in.

The width is about  in.

# Multiplication and Division

## 1 Multiplication

How many apples are there altogether?

$4 + 4 + 4 = 12$

3 groups of 4

$3 \times 4 = 12$

$4 \times 3 = 12$

There are      apples altogether.
